message; (ii) sending the SIP message and computer software code from the first SIP client associated with the first node to the second SIP client associated with the second node; and (iii) executing the computer software code using the second node."

in combination with all the elements of each independent claim as argued by Applicant in the reply dated (Appeal Brief ) 04/23/2008 as well as the enabling portions of Applicant's specification So as indicated by the above statements, Applicant's arguments have been considered persuasive, in light of the claim limitations as well as the enabling portions of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
